
5. Amino acid: Glycine, serine and threonine metabolism
6. Amino acid: Lysine metabolism
7. Amino acid: Phenylalanine & tyrosine metabolism
8. Amino acid: Tryptophan metabolism
9. Amino acid: Urea cycle; arginine−, proline−, metabolism
10. Amino acid: Valine, leucine and isoleucine metabolism
11. Carbohydrate
12. Carbohydrate: Glycolysis, gluconeogenesis, pyruvate metabolism
13. Cofactors and vitamins
14. Energy
15. Lipid
16. Lipid: Bile acid metabolism
17. Lipid: Carnitine metabolism
18. Lipid: Essential fatty acid
19. Lipid: Fatty acid
20. Lipid: Inositol metabolism
21. Lipid: Long chain
22. Lipid: Lysolipid
23. Lipid: Medium ch
24. Lipid: Monoacylg
